RNA Signal Logistic Regression
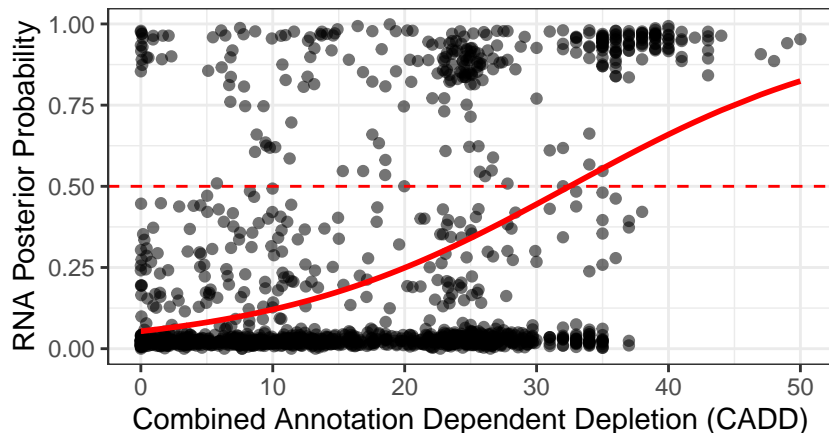

Solid Red Line: Prediction of RNA posterior probability with scaled MAF held constant at the median

RNA Posterior Probability vs Combined Annotation Dependent Depletion (CADD)
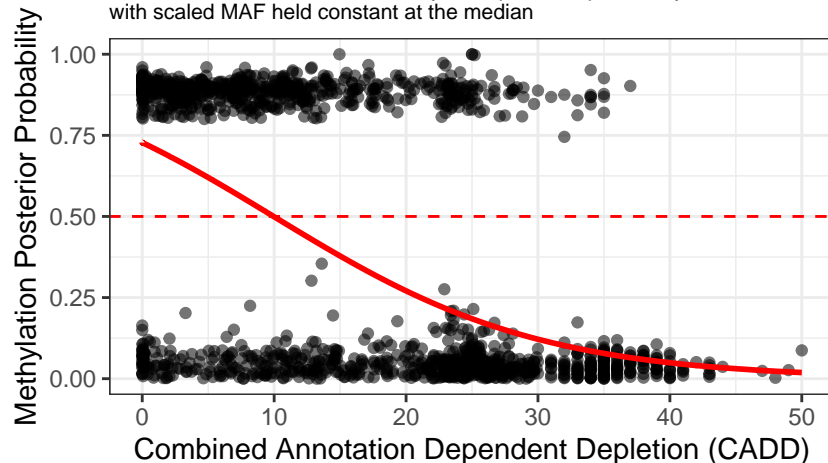

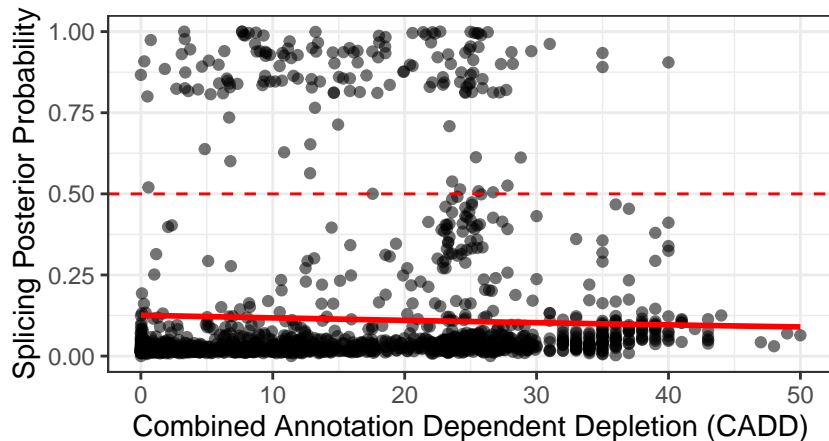

Methylation Signal Logistic Regression

Solid Red Line: Prediction of methylation posterior probability with scaled MAF held constant at the median

Methylation Posterior Probability vs Combined Annotation Dependent Depletion (CADD)

Splicing Signal Logistic Regression

Solid Red Line: Prediction of splicing posterior probability with scaled MAF held constant at the median

Splicing Posterior Probability vs Combined Annotation Dependent Depletion (CADD)

Protein Signal Logistic Regression

Solid Red Line: Prediction of protein posterior probability with scaled MAF held constant at the median

Protein Posterior Probability vs Combined Annotation Dependent Depletion (CADD)
